PROFILE

I’m an IT Engineering student with a passion for software development, AI/ML, and problem-solving. I enjoy building responsive and practical applications while continuously learning new technologies, improving my programming skills, and solving real-world problems through code.

EDUCATION

Bachelor’s in IT Engineering
Everest Engineering College, Pokhara University
Currently Studying

EXPERIENCE

Fresher / Student
Building technical skills through academic coursework, personal projects, and continuous learning in software development and AIML.

CORE STRENGTHS

Problem-solving • Continuous learning • Programming • Logical thinking • Web development • Adaptability • Team collaboration

LANGUAGES

English • Nepali

TECHNICAL SKILLS

Programming: Python, C, C++
Web: HTML, CSS, JavaScript, PHP
Database: MySQL, SQL
AI / ML: Python for AIML, ML fundamentals, Data Science fundamentals
Other: OOP, Database Management, Responsive Web Development

PROJECTS

Personal Portfolio Website
HTML, CSS, JavaScript — responsive portfolio with About, Services, Projects, and Contact sections.

Employee Management System
PHP, MySQL — CRUD-based employee management with database operations.

JavaScript Calculator
HTML, CSS, JavaScript — basic arithmetic calculator with interactive controls.

AIML Learning Projects
Python, AIML — hands-on learning in programming fundamentals, functions, strings, and problem-solving.

CERTIFICATIONS / LEARNING

AIML Learning Journey — Apna College
Python Programming • Python Functions • Python Strings • AI/ML Fundamentals

INTERESTS

Software Development • Artificial Intelligence & Machine Learning • Web Development • Programming • Technology
